DORM 10 ROOMS

Comments:

Dorm 10 is 15 minutes away from the campus by walk, it also has the option to take the transportation provided by the school, you can catch the bus every 10 minutes, or 20 minutes during summer or winter break. The main advantage of living in this Dorm is that your room has a private bathroom, which you share with your roommate. Another advantage is also the common areas, that you find them in every floor, except for the washing machine space, which is only one for the whole building and it's in the rooftop. The other advantage is that every floor has a refrigerator, it's always filled with stuff, but you can manage.
